REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: While slurries formed of natural gas and freezable material can be found in the prior art, no prior art can be found which shows or fairly teaches a tank with an input for gaseous natural gas which forms a slurry having a lower temperature away from sides of the tank, or having the freezing tank in which the slurry is formed made of material having a low thermal conductivity. The newly cited references use liquefied natural gas as an input and do not state that the tanks are formed of a material having low thermal conductivity.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to William C. Doerrler whose telephone number is (571) 272-4807. The examiner can normally be reached on Monday-Friday 6:30-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Cheryl Tyler can be reached on (571) 272-4834. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
